

Halliburton

Company overview

Halliburton and suppliers

- As our business out of Sandnessjøen will grow, Halliburton are looking for new local suppliers in the Helgeland region
- We will need suppliers with local precense who can offer cost effective solutions incl. supply of equipment, services, maintenance etc.

Goods and services we will purchase locally:

- Services related to our facilities and activity on the supply base
- Purchase and rental of equipment and capital items
- Maintenance of and service on equipment and capital items
- Personnel
- Machining
- Supply of materials / chemicals
- Supply of tools
- Accommodation and travel services

How to become a supplier to Halliburton?

- Register your business in Achilles, see www.achilles.com
- We recommend that you are **ISO-9001** certified
- Halliburton use tenders as main procurement strategy. We may need local long term frame agreements partners as well suppliers who can supply goods and services from time to time
- You can also contact Halliburton directly to promote your business and to be on bidders list for the applicable scope of work
